New Student Digital Access Data Elements required to be reported to the SIRS using the eScholar Student Digital Access template.

			Options	Clarifications	Example Parent / Guardian Questions
1	School-Provided Device	Indication of whether the school or district issued the student a dedicated school- or district-owned device for the student's use during the school year, either for use both in and outside of school, or for use exclusively in the student's place of residence.	Yes No	This does not count any devices that are in-school use only, or any device that is provided by the student's family/guardians. If this answer is Yes, elements 2, 3, and 4 cannot be None, None, and No Device.	Did the school or district give your student a device at your place of residence?
2	Primary Learning Device Away From School None			This can be a school-provided device or another device, whichever the student is most often using to complete their schoolwork. If this answer is None, elements 3, 4, and 5 should be None, No Device and No. If element 1 is Yes, this cannot be None.	What device does your student use most often to complete their schoolwork away from school?

7	Internet Access Type In Residence	The primary type of internet service used in the student's primary place of residence.	Residential Broadband Cellular Network Mobile Hot Spot Community Provided Wi-Fi Satellite Dial-up None	Residential Broadband - uses a cable (fiber or coaxial) or DSL modem hooked up to an Internet service provider. Cellular Network – uses your cell phone provider for internet access. Mobile Hot Spot - a wireless access point created by a dedicated hardware device or a smartphone feature that shares the phone's cellular data. For example, a cellphone or a device like a Kajeet, Verizon Jetpack, Netgear Nighthawk or MiFi. Community Provided Wi-Fi – internet connection provided by a community location (library, café, hotel, etc.) Satellite - Internet access provided through communication satellites (there is a satellite dish on your property for internet). Dial-up - connecting to the Internet by using a modem and telephone line. None If No to element 6, this must be None. If Yes to element 6, this cannot be None.	Who is your internet provider? Do you have a modem or router in your house? Do you use your phone as your internet access point? Do you use free Wi-Fi at a different location near your house as your only internet connection? Do you have a device like a MiFi, Kajeet or Verizon Jetpack in your house? Do you have a satellite dish on your house for internet access? Do you use a separate phone line to access the internet?
