

INSTRUCTIONS FOR STUDENTS:

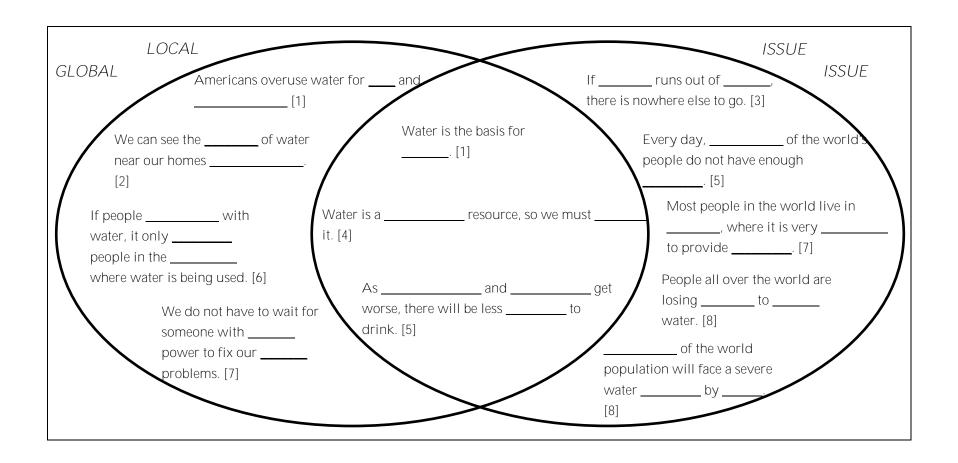

Listen as your teacher reviews the standards and objectives. Your teacher will call on

an individual or pair to explain what they mean. Learning Target: articulate - speak or how ideas in the readings write clearly about I can of water sustainability. the something present - show **Learning Target**: clarify - make I can make something easier to among texts. understand topic - subject connections - links *multiple* – more than one

INSTRUCTIONS FOR STUDENTS:

Work with a partner to fill out the graphic organizer. This is a Venn diagram. In the left circle, write evidence, or facts, that water sustainability is a *local* issue, or problem. In the right circle, provide evidence that water sustainability is a *global* issue. In the center, where the circles overlap, provide evidence that water sustainability is both local and a global issue. Use information you have gathered in your Water Note-Catchers from all of the lessons in the unit. *Hint:* lesson numbers are in [brackets].
